The screenshot shows the RPAGE system's 'Edit Page Footer' interface. The interface is divided into a sidebar on the left and a main content area. The sidebar contains navigation options such as '資訊管理', '文檔管理', '模組管理', '會員管理', '頁面管理', and '子網管理'. The main content area shows a list of footer items, with 'bottom-1' selected. A modal window titled '編輯頁面底部 - bottom-1' is open, displaying the current HTML code for the footer. The code includes a placeholder for the footer content and a link with the attributes 'accesskey="B"', 'href="#start-B"', and 'id="start-B"'. A red box highlights the original code, and another red box highlights the replacement code. The '儲存並返回' (Save and Return) button is also highlighted with a red box. The interface includes a search bar, a user profile dropdown, and a status bar at the bottom.
